

# Our trip to Spain

---

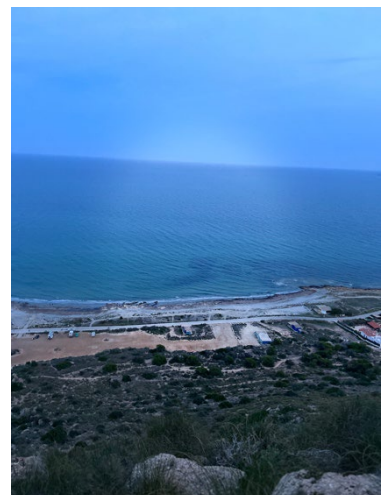

**14.10.2023**

I am very excited for our trip to Spain. We are going by the plane, as I know some of us are scared but I think we'll be fine. Later this evening I'm going out with my friends. I have to be careful to not stay too much because then I'll be tired as we have to get up at 4am.

**15.10.2023-4am, I had to wake up because we had to be at the airport at about 4:30. We arrived at the airport, we went through the process to get on the plane and we finally got on the plane. We then landed in Valencia, from where we had to take the bus to Elche. When we ordered our Uber, we had an issue: the driver did not know English and we didn't know Spanish. The driver was just in a wrong location. When we finally arrived to the bus station, we still had time so we went for a kebab. After that we took the bus to Elche. There we met with our family for a week. After, in the evening, we went to an amusement park.**

**16.10.2023-In the morning we went to their school for the first time, and we ate churros in the morning. We did our activities and then went to have the lunch. In the evening we went to a place called Santa Pola, where I really enjoyed the views.**

**17.10.2023-On this day, all of us, the romanians, the french and the spanish people, we all went on a trip to Elche, where we visited several things such as the Nasional Palm Park, the cathedral, the Altamira castle. In the afternoon we went to Tabarca, a very beautiful and famous island, and I really liked the boat ride until there. On the island we went to a very beautiful beach where we swum and I really wanted to jump so I went with a local and we jumped from different cliffs. I really enjoyed that day.**

**18.10.2023-I got up in the morning as usual, at 7:30 and went to school where we first had some students show us different experiments, which I really enjoyed and after that we had history where we played a game. We divided in 3 teams, the romanians, the french and the spanish. We only played 2 games and we, the romanian, won both of the games so we really dominated the game. Then we had PE and in the afternoon we went to La Marina beach, which was actually only 5 minutes from our house.**

**19.10.2023-We visited Alincante, with its beautiful castle, Santa Barbara, a very interesting castle with a lot of history. After, we went to the beach where we had an activity and we got to surf and ride in a canoe, in which I had lots of fun.**

**20.10.2023-The last day at the school, I really liked the school, the only negative thing would be that we could not get out the school and it gave me the impression that we were locked up. We had some activities and in the evening we were surprised by a secret party. We stayed until pretty late so the next day I was very tired. Also the spanish kids gifted us a very beautiful photo album.**

**21.10.2023-Saturday** came, and we had to leave for Valencia. We woke up and we went to the bus station but because of a misunderstanding, we arrived one hour earlier than we should've so we had to wait some time. The other came and once it was time to go we all hugged and said our goodbyes to each other. After almost 3 hours, we arrived to Valencia. We stopped to eat something before we went to our hostel. We later visited the city and came to sleep because we had to catch the plane.

**22.10.2023-**At about 6 we woke up and got ready. It was a challenge to find a taxi but we finally found one. We got to the airport, got on the plane and arrived to Romania. I really liked the whole experience and I would gladly do it again.

**To be continued...**
